## **Voucher (Online, Internet Based)**

---

Online products are easily accessible via internet from any device that is connected to high-speed internet from anywhere. We offer several options in this category such as,

1. **Math Curriculum (Single Grade)**
2. **eBooks Math Curriculum)**
3. **Family Math Packages (All Grades)**
4. **Math Placement Test w/ Lessons**
5. **Mini Math Courses.**

## Math Curriculum – Single Grade (with Video Lessons)

### Video Lessons, Worksheets & Tests w/ Automatic Grading N Tracking

A comprehensive math curriculum that **teaches with video lessons** and **keeps track of all student work assignments** for you so you don't have to. This **Single Grade** level option allows you to purchase a particular grade level of your choice at a very heavily discounted price. Each grade level includes everything you need to give your student a solid foundation in math. Each lesson is reinforced with quizzes, worksheets, and tests that can be completed and graded automatically online. Worksheets and Tests can also be printed for a more traditional learning experience.

**Parents:** Leave ALL your math worries behind you, become stress-free and save your valuable time – This program teaches, grades and tracks everything for you!

#### Student Features:

- ✓ Computer animated, fun, easy-to-follow and engaging Video lessons with interactive review
- ✓ Interactive Review identifies and closes learning gaps as it automatically re-teaches concepts.
- ✓ Automatically generated worksheets and tests can be completed online- instantly graded & recorded
- ✓ Review each question for online worksheets and exams with step-by-step solutions
- ✓ Progress reports allow student to track their own success and encourage independent learning
- ✓ Printable worksheets and tests allow flexibility to practice problem solving in a more "traditional way"
- ✓ Curriculum eBooks provide easy access to lessons in PDF format
- ✓ Worksheets and Test Solution Guides provide step-by-step solutions
- ✓ Reference sheets provide easy access to facts and formulas.

#### Parental Features:

- ✓ Recommended Lesson Plan
- ✓ Instant online grading
- ✓ Parental controls allow parents to lock solution guides & adjust test duration
- ✓ Progress reports identify areas of strengths and weaknesses
- ✓ Ability to print worksheets/tests and enter student scores to track progress for all work completed offline

## eBooks Math Curriculum – Single Grade (No Video Lessons) Lessons (PDFs), Worksheets & Tests w/ Automatic Grading N Tracking

Most homeschool moms often find it difficult to homeschool math on a tight budget particularly when you are homeschooling multiple kids. They are looking for a math resource that can do most of the work for them and save them time. Automatic Grading N Tracking of all the worksheets and tests with step-by-step solution to each problem is a HUGE time saver.

The eBook Math Curriculum **includes lessons eBooks (PDFs)** and **keeps track of all student work assignments** for you. This option DOES NOT include the video lessons. This **Single Grade** level option allows you to purchase a particular grade level of your choice at a very heavily discounted price. Each grade level includes everything you need to give your student a solid foundation in math. The PDF lessons are fun, colorful and engaging which make teaching math a breeze with easy to follow explanations and lots of visuals. Worksheets and Tests can also be printed for a more traditional learning experience.

This option is a HUGE TIME SAVER & A BIG WINNER for Busy Homeschool Moms on a tight budget. Automatic grading n tracking saves your valuable time and eliminates all the frustration of checking and tracking student work.

A COMPLETE Math Curriculum with,

- ✓ Curriculum eBook (PDF Lessons)
- ✓ Worksheets & Tests - Already generated for you (online or print PDF)
- ✓ Parent can generate and assign worksheets & tests (optional)
- ✓ Students complete worksheets online or offline (printed PDF)
- ✓ Step-by-Step Solution to each problem
- ✓ Automatic Grading & Tracking (HUGE Time SAVER)
- ✓ Easy to read reports
- ✓ Plenty of practice to master math concepts

## Family Math Packages – ALL Grades (with Video Lessons)

### Multiple Grade Levels, Video Lessons, Worksheets & Tests w/ Automatic Grading & Tracking

The Family Math Package includes ALL grade levels (1<sup>st</sup> – 6<sup>th</sup>, Pre-Alg and Algebra 1). It gives you the flexibility to change the grade level with your student's learning pace. You can purchase 1-student package or multiple student packages where students have access to ALL grade levels. The Family Packages are the most flexible, comprehensive program on the market. This is excellent for those needing to review previous grade levels or move ahead. A+ interactive Math online is accessible from anywhere with high speed internet access.

**Parents:** Leave ALL your math worries behind you, become stress-free and save your valuable time – This program teaches, grades and tracks everything for you!

#### Student Features:

- ✓ Instant online grading
- ✓ Parental controls allow parents to lock solution guides & adjust test duration
- ✓ Progress reports identify areas of strengths and weaknesses
- ✓ Ability to print worksheets/tests and enter student scores to track progress for all work completed offline

## Math Placement Test w/ Lessons

### Multiple Grade Levels, Video Lessons, Worksheets & Tests w/ Automatic Grading & Tracking

Our "**Adaptive Placement Test w/ Individualized Lesson Plan**" is designed to help you **identify and close learning gaps** quickly. You simply select a grade level your student recently completed and let student take a series of "mini tests" to identify learning gaps for all major math concepts. Each mini test focuses on a specific math concept – fractions, multiplication, division, decimal numbers etc...The "mini tests" are **adaptive** meaning it will **automatically adjust the questions** based on how your student answers the questions. At the conclusion of a mini test (takes about 15 to 20 minutes), it **accurately identifies student's skill level** for that particular math concept tests in a mini test. It then creates an "**individualized**" lesson plan that includes everything you need to close the learning gaps!

- ✓ Colorful, engaging and fun multi-media lessons that teach math concepts using audio, visuals and text.
- ✓ Interactive Review for each lesson identifies and closes learning gaps by automatically re-teaching math concept if student provides an incorrect answer to any questions.
- ✓ Worksheets to apply math concept and practice problem solving with automatic grading and tracking.
- ✓ Various reports to measure student progress.

Here is a link to YouTube **video demo**:

Top 12 Reasons to use this "Adaptive Placement Test w/ Lessons" program

1. Multi-grade level testing accurately assesses student skill level.
2. "Mini-test" for each major math concept provides more comprehensive assessment.
3. Students take 15 to 20 minute long "mini-tests" over a period of time at their own pace and NOT a big long boring cumulative test. This avoids fatigue, boredom and makes it more manageable.
4. Easy to read and very visual report instantly shows you strengths and areas of concern. Even a 5-year old student can interpret the report with clear goal line (see pictures below).
5. "Personalized" lesson plan specifically targets the problem areas with video lessons, interactive review, practice problems, step-by-step solutions and more...
6. Video lesson are fun, engaging and very effective as they relate to examples from daily life to make math more relevant
7. Interactive reviews automatically re-teach math concepts where needed.
8. Practice problems allow students to apply math concepts with step-by-step-solutions that reinforce math concepts when needed.
9. Students make HUGE progress in just 30 minutes or less each day.
10. Students can re-take any "unit-test" and immediately see progress towards or beyond the goal line.
11. Can be used with any student regardless of what Math curriculum the student is using and his/her skill level!
12. Excellent and affordable for homeschooled parents/students as well as school teachers/students

## Mini Math Courses (with Video Lessons)

### Multiple Grade Levels, Video Lessons, Worksheets & Tests w/ Automatic Grading & Tracking

Math Mini Courses Online from A+ Interactive Math are an affordable and excellent way to close learning gaps in particular areas of Math where students may have weakness. Each mini course covers a logical group of specific math concepts from several grade levels. It offers an in-depth review of math concepts from a very basic to a more advanced level. Mini Math courses help build a strong foundation in Math by providing students with consistent review of the specific areas in which they're weak.

There are a total of 20 Math Mini Courses available Online from A+ Interactive Math. Each Math Mini Course provides 1 year access online for a very affordable price of just \$9.99 to \$19.99. Most students can complete each mini course in 2 to 3 months, however, you will have access to it for a full 1-year if you need to go back and review.

Each mini course includes,

- ✓ Multimedia Lessons that teach math concepts with fun, colorful and engaging computer animated video lessons, audio and text.
- ✓ Interactive Review for each lesson that helps students/parents identify and close learning gaps.
- ✓ Worksheets that provide extra practice to help master each math concept.
- ✓ Automatic grading and tracking.
- ✓ Easy-to-read progress reports.
- ✓ Solution Guides that provide detailed step-by-step solutions with visuals to each problem on worksheets.
- ✓ Full text versions of lessons that provide additional flexibility for those who like to read through the lessons.
- ✓ Printable worksheets and tests for practice offline.
